Model 99®

MSRP OF .416 CAL WITH 32" BARREL: \$4,200.00
MSRP OF .50 CAL WITH 29" BARREL: \$4,000.00

The Model 99 rifle is a robust and accurate single-shot rifle. At its heart is a one-piece Alcoa 7000 series aluminum alloy extrusion. A heat-treated steel M1913 optics rail is attached to the top of the extrusion by closely spaced high-strength structural fasteners. The match-toleranced barrel is hydraulically pressed and locked into the extrusion resulting in a rock-solid, unitized structure on which to mount a rifle telescope. Safety is unparalleled because the cartridge is surrounded by both high-grade gun barrel steel and the aluminum extrusion.

The bolt is machined from a single piece of proprietary grade steel. Its 15 lugs safely lock it into the machined barrel extension. The bolt's few moving parts are its extractor, ejector and firing pin assembly. It is reliable and easy to maintain.

The Model 99 is easily disassembled without tools by removing three quick-release assembly pins. These pins attach the trigger housing and bolt guide to the receiver assembly. The match-quality trigger design is proprietary and virtually maintenance free. The bipod is easily detached for benchrest shooting.

SPECIFICATIONS

Calibers - .416 Barrett or .50 BMG

Operation - Single shot, bolt action

Barrel lengths	Overall lengths	Weights
32 in heavy (81 cm)	50 in (127 cm)	25 lbs (11.4 kg)
29 in fluted (73 cm)	47 in (119 cm)	23lbs (10.4 kg)

Twist rate - .416 Barrett Right, 1 in 12" 30.5 cm
 .50 BMG Right, 1 in 15" 38.1 cm

FEATURES & ACCESSORIES

M1913-style steel optics rail, parallel with bore, 13.75 (35 cm) inches long

Unitized barrel and aluminum receiver

Detachable bipod with adjustable legs

Pelican case

Cleaning kit

Other manufacturers may cut corners on quality and design. Barrett does not because even in a single shot, you get what you pay for.

The Model 99 is what you expect in a Barrett. Strong. Simple. Accurate.

*** MSRP for U.S. civilian sales. Shown with optional accessories.**
